

The essential collaboration platform for all your business needs

Bringing you closer to your customers

Who We Are

Webjam brings you and your customers closer together – to easily connect and share information in real time. Webjam also equips your teams to find and share knowledge and expertise – working together to achieve more.

Webjam delivers a fully customisable platform for all of your customer community needs – uncomplicated to install and run – providing a full suite of social functionality without technical knowledge or external resources.

Your Social Platform

- Invite customers, members and fans to join your community(s) and interact with your brand and each other.
- Quickly and easily identify trends, themes and uncover innovative ideas.
- Leverage the power of community to grow your business.
- Maintain control through advanced privacy and membership features.

Webjam Features:

Site Creation

Open Platform

ID and Profile Management

Site Management

Content and Publishing Tools

Community Management Tools

Statistics and Analytics Tools

Content Moderation Tools

Unique Tools for Editors
